

Filter System Counter Top

The Counter Top Filter System is designed for improving the quality and taste of Potable Water. The system incorporates a slimline housing, flexible hose and diverter valve for portability and easy installation. Because of its compact size and no plumbing required it is perfectly suited for rental homes, units or anyone on the move.

The Carbon Cartridge supplied in our system will reduce Sediment, Chlorine, Taste, Odour and Organics and 99.95% of *Giardia* and *Cryptosporidium* Cysts. The filter system accepts most standard 10" cartridges which enables a choice of Carbon Cartridges for different levels of water quality to suit your specific requirements.

Features and Benefits

- Reduced Chlorine Taste and Odour
- Sparkling Clean Water
- Continuous supply of Filtered Water at your finger tips
- High Quality water at a very Low Cost
- Superior Quality Filter Cartridge
- No more bulky water dispensers or storage bottles
- Simple Installation and Easy to Use
- Full flavour from Tea, Coffee, Beverages and Cooking
- Portable

Typical Applications

Home

- Drinking, Beverages and Ice
- Cooking
- Compact replacement for Bulky Ceramic Filters and Filter Jugs
- Motor Homes
- Caravans

Office

- Drinking Water, Tea and Coffee
- Replacement for Costly Water Coolers

General Specifications

- Connection: Sink Spout Aerator Thread
- Dimensions: Height: 310mm (12¼")
Width: 140mm (5½") Depth: 140mm (5½")
- Temperature Ranges: 4.4°C - 37.8°C
(40°F - 100°F)
- Flow Rate (Maximum): 3.8 Lpm
(For best results run the system at 1 - 2 Lpm)
- Filter Capacity: @ 3.8 Lpm 189,300 Lts
(Estimated capacity based on 2.0 mg/l free available chlorine, capacity will vary depending on raw water quality.)

*Cartridge supplied but not shown.

NOTE:

Recommended cartridge change is 6-9 months from date of installation, or earlier if required or at a maximum increased pressure differential of 69 kPa (10psi), whichever occurs first.

Warning: For drinking water applications, do not use water that is microbiologically unsafe or of unknown quality without adequate disinfection.
